Profile Summary

I am an academic with a proven track record in computing education and leadership. Possessing an MSc with Distinction in Information Systems Management, I bring a deep-rooted passion for technology to my role. I have excelled in various leadership positions, demonstrating a commitment to academic excellence, student success, and innovation.

Key Skills

Computer Science Artificial Intelligence (AI) Integration Strategic Leadership Academic Program Leadership and Development Curriculum Design and Delivery Team Building and Management Change Management Quality Assurance and Enhancement

Education and Qualifications

MSc Information Systems Management (Distinction) - University of Huddersfield (2020 – 2021)

PGCE Computing with QTS - University of Huddersfield (2008 – 2009)

BA (Hons) Interactive Multimedia - University of Huddersfield (2004 – 2007)

Work Experience

Mathematics, AI Consultant - Outlier AI, **(September 2024 - Present)**. A platform for training AI models Working on a number of projects to train AI systems. These projects include writing, ranking, and evaluating AI chatbot prompts.

Programme Leader, Computing - ESL (June 2024 - Present) I am a Programme Leader for Computing at ESL for Bath Spa University partnership. In this role, I lead the development and delivery of the Computer Science programme, improving graduate employment rates and latest computing trends. I build high performing academic teams through effective leadership and mentorship. Additionally, I have successfully integrated AI into the curriculum. I build strong industry partnerships to enhance student employability and curriculum relevance. I interview Computing Lecturers. I work closely with the Assessments/Exams department, Retention teams for internal and external moderation.

AI & Tech CAPD Project Lead (June 2024 - Present)

I also lead an AI & Tech CAPD project. In this capacity, I have pioneered the research of AI technologies within the institution. I have collaborated with faculty and staff to identify opportunities for AI-driven innovation and efficiencies. I have built AI industry contacts who I use in an expert capacity for the project. I lead a team of computer scientists in this project where I was in the process of setting up a chatbot for ESL students and rollout AI apps to support ESL students.

Computing Lecturer and Module Lead - Elizabeth School of London – Leeds Campus
(February 2024 - June 2024)

In this role, I designed and delivered engaging computing modules to diverse student cohorts. I provided academic guidance and support to students. I led a team of computing lecturers who taught my module.

Computing Lecturer and Course Coordinator - Shipley College (2023 - 2024)

I led the development and delivery of 3 Computer Science T Level courses. I managed course administration and student progression. I interviewed, trained and mentored computing lecturers. I led a team of computing lecturers that taught on 3 T
